Last Call For Cloaks!

Hundreds of new garments at half price and a SEAL MUFF
FREE with every plush garment sold. The above noted sale is not
to unload old stuff; we have none, nor because we are overstocked,
but simply to create a stir the few remaining days of this month.
The quotations are for new goods and will not be in force after
April 1st. It would be wise to investigate at the old stand on the
bridge

ARCHIE REID.

New Spring Goods in every department, and a simply
complete line of Spring Garments.

THE WONDERFUL NEW PROCESS

The only stove of this kind that has been fully tested. Over 50,000
sold last season. GREATLY IMPROVED FOR 1891.

**It Lights Like Gas,
Makes no Smoke or Smell,
Perfectly Safe.**

Guaranteed to be the most economical stove made. Read about it.
See it Buy it.
HANCHETT & SHELTON.
Dealers in Hardware, Stoves, and House Furnishing Goods, South Main
Street. PRICES RIGHT.

NO DANGER

Of not getting your money's worth in buying those beautiful, all
40-inch Plaids and checks, in
the latest spring colorings—
Boucle, Biretz and Camels Hair
effects at

50c a Yard.

If you want something a little better and that has a little more
tone, our line at 65 cents will
please you.

65 cts

Our line of Black and White
Plaids and stripes are the best
values and styles that have
ever been shown for the money at

**25c, 35c, 50c
75c and \$1.00.**

Do not buy a dress of any kind
without first looking at our
line. We show the best se-
lected stock in the city.

BORT, BAILEY & CO.

**J. M. BOSTWICK
& SONS.**

You Certainly Should Know

THAT we are agents for Hall's Bazar Portable Dress and Skirt
Forms, over which to fit dress waists and drape skirts, they
are indispensable to ladies who do their own dress making,
or employ dressmakers

THAT we are agents for the F. P. Robinson Detachable Umbrella
Covers, all qualities; prices 75c to \$3 00.

THAT we sell Ladies Black Hose, slightly imperfect in manu-
facture, 5 pair for 25c, low isn't it?

THAT we sell the Victoria Carpet Sweeper; sweeps without
touching the Carpet; new principle and a good one; try
it; can be returned if not satisfactory.

THAT we are agents for Centemeri Kid Gloves, none better.

THAT we have the Biaritz Kid Gloves, 7 inch length, button-
less, at 85c.

THAT we show a very catchy lot of for-outer-wear Spring Gar-
ments, all our exclusive styles.

THAT the stock of Carpets we show stands without a peer for a
distance of seventy miles around.

OUR STOCK is now
complete in every de-
partment.
OUR PRICES reason-
able in every particu-
lar.
CALL AND SEE us
and judge for your-
selves.

Janesville Hardware Co.
102 W. Milwaukee St.
The New Method Gas-
line Stove is a Hum-
mer.

**Our Home "Riv-
erview,"**

Is for sale. Mr. Elliott and family
are to vacate it May 1st, and it is
larger than we can occupy to advan-
tage. It is by far the best home in
this city and it is hard to duplicate
(everything considered) in the United
States for the money it costs.
The site is superb. It embraces
ten full city lots 4 by 8 rods. The
house and barn are every way right.
It is worthy the attention of any
one seeking a first class home. As
we before said, we will sell it and
will give possession May 1st.

We have an architect working
on plans for a smaller but equally
good house, to be built for our-
selves directly opposite "Riv-
erview," and if we can sell this we
shall have it built to occupy by July
15th.

This is an unusually attractive
opportunity. Come and see us

Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

**Our Home
Journal**

"The Home" has been a source of
much pleasure to us and that it has
not been of much profit in way of
money, cuts no figure. But owing
to the fact that we are driven in
our other lines of work and that we
are to lose the editorial assistance
of Mr. Elliott, we have concluded
to abandon the publication of the
same. Friends who have paid for
1891 can have their quarter by call-
ing at our office. Thanking our
readers and promising that they
shall hear from us frequently in
some form, we are

Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

Never Before

Were we so well fixed to meet
Home-seekers and lot buyers as we
are at this time. Any one desiring
a home can get it if they will call
on us, at terms so easy that they
must buy. A few very choice lots
for sale on South Main Street and
in Glen-Etta and Riverview Park.

Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

THE FATE OF A TYRANT

**Bloodthirsty Madagascar Official
Put to Death.**

HIS BROTHER IS ALSO EXECUTED.

Story of the Pitiless Massacre at Their
Order of 273 Persons—Their Victims
Cruelly Tortured Before Their
Final Slaughter.

A TERRIBLE STORY.

PARIS, March 25.—Prompt vengeance
has fallen upon Ramiasatra, governor of
the province of Belanona, Madagascar,
who, according to the news received
here March 4, massacred 273 persons
including men, women and children,
belonging to the leading families.
Dispatches just received here state that
Barradosse, together with his brother,
who is supposed to have instigated the
massacre, have been executed on the spot
where the wholesale killing took
place under the cruel governor's direc-
tions.

The cause of Ramiasatra's sanguinary
conduct originated in the fact that he
fiercely resented a petition for the
population addressed to the government
asking protection from his repeated acts
of cruelty. This so enraged the gov-
ernor that he commenced to slaugh-
ter men, women and children, and con-
tinued so doing for several days. In
many cases the agonies of the victims
were protracted by the governor's
causing their limbs to be gradu-
ally dismembered; their heads to
be slowly sawed off and by sub-
jecting them to other acts of torture.
During the course of the massacre
many of the women who were put to
death were first outraged. In the case
of all the victims their bodies were
thrown to the dogs. In addition to
these atrocities the survivors were com-
pelled to erect a trophy composed of
the heads of the murdered people upon a
spot near the scene of the butchery.

The fury of the populace was aroused
to such an extent by Ramiasatra's
inhuman conduct that the govern-
ment of Madagascar was compelled
to take notice of the governor's
bloodthirstiness, and promised to in-
vestigate the whole affair and to
punish the offenders if they were
found to be guilty. This, thanks
to the moral pressure brought to bear
on the government by the foreign resi-
dents, has actually been done, and Gov.
Ramiasatra and his equally ferocious
brother have met the fate they so rich-
ly deserved.

THE GRIP IN PITTSBURGH.

Alarming Spread of the Disease in the
Steel City.

PITTSBURGH, Pa., March 25.—From a
street joke the grip has become a gen-
erally dangerous disease. The death
rate has increased to a great extent,
and this month will break the record
by the alarming increase of 50 per
cent. Closing at noon Tuesday 728
deaths have occurred in Pittsburgh and
Allegheny in the twenty-four days of
this month. Thirty-eight days have
been reported within the last twenty-
four hours, and many no doubt have
not been reported. The direct causes
point on certificates are half-and-half
influenza, pneumonia, typhoid and diph-
theria. From the last-named disease
one death a day has occurred within
the last three weeks at the Home of the
Friendless alone. In the two cities
there were fifty-one funerals last Sun-
day, and there were not one-half enough
hearses to go around. Respectably cov-
ered wagons are used and carriages are
daily at a premium. In one large
clothing house twenty-three clerks are
laid off with the influenza, which is
daily growing more severe and num-
bers victims nearing the 5,000 mark in
the city and suburbs. Physicians are
overworked and some have as high as
forty to sixty cases of grip alone.

The Sherman Statue Fund.

NEW YORK, March 25.—The Sherman
statue committee met again Tuesday,
and a most flattering condition of af-
fairs was developed. At last week's
meeting the fund showed \$38,635. On
the afternoon of the same day the
casino benefit netted \$1,000 and Tues-
day the subscription lists showed
thirty-four new contributions, aggregat-
ing \$4,532. The total to date is thus
\$54,795, which is declared to be suffi-
cient to complete the statue.

Exportation of Cattle.

WASHINGTON, March 25.—The de-
partment of Agriculture reports the
number of inspected cattle shipped out
of the country after inspection under
the new law as 125,000, of which over
40,000 went from New York and 25,000
from Baltimore.

A Veteran Dead.

TOLLEDO, O., March 25.—Gen. John C.
Lee, at one time lieutenant-governor of
Ohio and a conspicuous officer in Rose-
crans' army during the war, died here
Tuesday. He was in charge of the
fortifications at Washington until the
fall of Richmond.

Death of a Mormon Leader.

SALT LAKE CITY, U. T., March 25.—
Daniel H. Wells, counselor to the
twelve apostles and general in the Na-
voo legion, an old-time leader and
trusted official of the Mormon church,
died in this city Tuesday of pleuro-
pneumonia.

Gen. Foster at Madrid.

MADRID, March 25.—Gen. J. W. Fos-
ter, the special representative of the
United States in the negotiations for a
commercial treaty with Spain, has ar-
rived here and has already had a con-
ference with the ministers.

Perished with Her Child.

ST. JOHNS, N. F., March 25.—A
Frenchwoman at Red Island attempted
to save her child, who was being car-
ried out to sea on an ice floe, and was
herself borne away with the little one.
Both were lost.

A Depot Burned.

TAMA, Ia., March 25.—The North-
western depot and grain elevator
burned at Belle Plaine at 4 o'clock a.
m., 10,000 bushels of grain being de-
stroyed. The loss is estimated at \$20-
600.

Must Pay More Taxes.

DES MOINES, Ia., March 25.—The ex-
ecutive council completed the annual
assessments of railroad property Tues-
day. The total is raised from \$42,833-
000 to \$44,556,317. The increase was
made will be generally satisfactory. A
few alliance men had insisted that it
should be made \$100,000,000, but this
proposition has not met with any great
favor.

ILLINOIS.

The House Adopts Gov. Fifer's Resolution
—The Election Bill Reported.

SPRINGFIELD, Ill., March 25.—A com-
munication was presented in the house
from Gov. Fifer setting forth that he
had been apprised by the general gov-
ernment that the sum of \$974,568.63 had
been appropriated to the state of
Illinois in full settlement of the
direct tax claim of the state.
A joint resolution accompanied the
message providing that the money be
accepted on the terms upon which it
was appropriated. J. W. White moved
the adoption of the joint resolution
and Mr. Eddy, of McLean, moved
its reference to the committee on fed-
eral relations. After half an hour's
wrangle over the question the yeas
and nays were called on the motion
to refer and it was lost. The joint re-
solution was then adopted. A substi-
tute election bill from the committee
on elections was read under the
rules. This bill takes the place of all
the Australian ballot and election bills
introduced in the house, and is con-
sidered the most perfect measure of
the kind yet evolved in this
country. The bill was ordered printed,
and when it comes up for second read-
ing Mr. Dixon, of Lee, will offer his
amendment to the ballot clauses. There
is no doubt that the bill will pass the
house, probably the senate also. It
provides for the absolute secrecy of the
ballot and applies to all elections ex-
cept school trustees and town trustees.
Among the bills introduced were the
following:

To require railroads in this state to keep a
bulletin board at each of their
stations on time; to make the first Monday
in September of each year a legal holiday to be
designated as "Labor day"; to provide that the
money to be paid the state by the general gov-
ernment in accordance with the direct tax act
shall be applied to the construction of hard
roads throughout the state; to require tele-
graph companies doing business in this state
to keep their offices open at all hours of the
day and night in cities having more than 10,000
inhabitants.

The senate passed the bill requiring
corporations to pay their employees
weekly; also the bill to cede to the
United States government certain lands
in Rock Island. A large number of
bills were presented, and many were
advanced to a third reading.

The bill authorizing a tax of two mills
to maintain the Chicago public library
has passed both houses of the legisla-
ture, and only awaits the signature of
the governor to become a law.

MICHIGAN.

Many Lawmakers Down with the Grip-
Work in Tuesday's Session.

LANSING, Mich., March 25.—A large
portion of the members of the legisla-
ture were down with the grip, and the
grippe, consequently business in both
branches has been extremely light.
Resolutions were unanimously adopted
in the house calling for an investiga-
tion into the charges of attempted
bribery reflecting upon members of the
senate, and into the charges against
Representative Friedlander. Commit-
tees of investigation were appointed in
both instances. Senator Bastone's uni-
form text book bill passed the senate.

It provides that in June, 1892,
there shall go into use in all
the public schools of the state, ex-
cept those in towns of over
5,000 inhabitants, a uniform series of
text books printed only in the English
language. These books are to be se-
lected by the state board of education,
and the series will not be changed in
ten years. The secretary of state is
authorized to make contracts for the
purchase of at least one copy of each
book for every child in the state. Bills
also passed the senate abolishing the
fee system in Kent county; for
compensation of clerks of the
courts, register of deeds and county
treasurer, leaving it with county boards
of supervisors, who may fix salaries at
less than \$1,000 or in excess of
\$2,500, and all interest on court funds
to be for the benefit of the county, in-
stead of the treasurer, as heretofore.

After a hard fight against it by the
Western Union company the house
committee on state affairs has decided
to favorably report a bill reducing tele-
graph rates in Michigan from twenty-
five to twenty cents for ten-word mes-
sages, and from two to one cent for
each subsequent word.

The legislative committee on fish and
fisheries will report to the house rec-
ommending that all the whitefish
hatcheries in the state be turned over
to the federal government.

Northwestern Baseball League.

JACKSON, Mich., March 25.—A meet-
ing was held in this city Tuesday to
organize a baseball league. Representa-
tives were present from Detroit,
Grand Rapids and Bay City, Mich.,
Peru, Evansville and Fort Wayne, Ind.,
and Columbus, O. An eight-club
league was organized, consisting of
Grand Rapids, Detroit, Bay City, Fort
Wayne, Indianapolis, Evansville and
Toledo, leaving one vacancy yet to be
filled. W. S. Walker, of Detroit, was
chosen president, secretary and treas-
urer. The league is to be known as the
northwestern.

Hostilities Begun.

PUERTO CABELLO, March 25.—The first
fight has taken place between the Ven-
ezuelans and the English on the fron-
tier of British Guiana. The dispute
about the boundary line between Ven-
ezuela and British Guiana is of long
standing and the territory which Eng-
land seems determined to take
from the Venezuelans is somewhat
larger than the entire state of New
York.

Death of Charles E. Chickering.

NEW YORK, March 25.—The death of
Charles Frank Chickering, head of the
house of Chickering & Sons, took place
Monday evening. He was about 63
years old and had controlled the busi-
ness of the firm since 1871. He was in-
terested in musical matters, and was an
early president of the Boston Handel
and Haydn society.

Refuse to Be Evicted.

LOXDOY, March 25.—One hundred
Croftens and their families were
evicted from their homes in the
Island of Lewis, in the Hebrides,
to make a deer preserve. On Monday
they took forcible possession of their
old farms, and announced that they
will resist any attempt to again evict them.

Failure at Nashville.

NASHVILLE, Tenn., March 25.—An-
derson, Green & Co., wholesale dry
goods, notions, etc., of this city, have
failed. The liabilities are about \$175-
000. It is said the assets will cover the
liabilities. A statement has not yet
been filed. Inability to make collec-
tions was the cause of the failure.

Killed by the Cars.

ANDERSON, Ind., March 25.—Lizzie
Bond, aged 20, while walking along the
Cincinnati, Wabash & Michigan rail-
road, stepped from the track to escape
an approaching train.

HIS DEATH PLANNED

**A Bride Arranges to Murder
Her Spouse.**

CONFESSING HER CRIME IN COURT.

Mrs. Calkins, at Goshen, Ind., Turns
State's Evidence, Tells How she
and Her Paramour Made Away
With Her Spouse.

DRUGGED AND DROWNED.

GOSHEN, Ind., March 25.—Mrs.
Frances Calkins, who is on trial with
Frank Hendrix for the murder of her
husband at Elkhart last April, turned
state's evidence Tuesday and made a
full confession of the crime. This
coupled with other strong evidence ad-
duced by the prosecution has made the
case look almost hopeless for Hendrix,
who still stoutly maintains his inno-
cence.

The sensational features of the in-
quiry, after all other evidence for the pro-
secution was in, was the release of Mrs.
Calkins from custody in order that she
might appear on the stand as a witness
for the prosecution. Her story of the
awful crime, by means of which she
and Hendrix hoped to secure a large
sum of money, was graphically told
and at times brought the audience up
to a high pitch of excitement. It is as
follows:

In February, 1890, Mrs. Calkins, who
was then a widow (Mrs. Whipple), was
living in a flat at Elkhart on the same
floor on which Hendrix last April, turned
state's evidence. Edward Calkins, a
man possessed of some money
and property and editor of the
Labor Signal, state or-
gan of the Knights of Labor, boarded
with her. She and Hendrix became
quite intimate and soon formed a plan
which, if successful, would result in
her marrying Calkins, his getting
his life insured for \$5,000, willing his
property to her and then being "re-
deemed."

Everything went well. Mrs. Whip-
ple, who was a fascinating widow of
35, was married to Calkins March 25.
A few days later Hendrix induced him
to take out an accident insurance pol-
icy for \$5,000, payable to his wife, and
also to will his cash and property to
her. Everything being now in readi-
ness for the final blow on April 3,
they took Calkins boat-riding, drugged
him with morphine, and when he was
asleep he was thrown overboard into
the river. They then wet their
clothing thoroughly and returned, tell-
ing everyone that the boat had cap-
sized and that Calkins was drowned.

During the recital of this story by
Mrs. Calkins Hendrix was apparently
unmoved. He avowed that she is a bad
and designing woman, and that the
whole scheme is one of blackmail.

GEN. JOHNSTON'S FUNERAL.

The Old Confederate Veteran Buried as a
Civilian with Simple Ceremony.

WASHINGTON, March 25.—Funeral
services were held at 11 o'clock
Tuesday over the re-
mains of the late confederate
general Joseph E. Johnston at
St. John's Episcopal church. The
church was crowded with con-
federate veterans and many people
prominent in official life. The services
were of the simplest character; no at-
tempt at decorating the church was
made, and no flowers save a wreath of
immortelles on the coffin were visible.
This simplicity, characteristic of the
man, was observed at his earnest re-
quest, as he did not desire any display.
Though the church was filled with
veterans and their relatives, there was
a uniform visible to announce the fact.
The last great soldier of the civil
conflict was buried as a civilian, not as
a soldier. Rev. Dr. Douglass, the rector
of St. John's church, assisted by
Rev. Dr. McKim, confederate chaplain
of Johnston's command during the war,
conducted the services. The remains
were conveyed to Baltimore on the 1:30
p. m. train over the Baltimore & Poto-
mac railroad.

BALTIMORE, Md., March 25.—When
the body of Gen. Johnston arrived here
his old soldiers were at the railroad
station and their heads as they
the coffin was borne past them. They
did not form part of a funeral procession—
they obeyed his command. He was
laid to rest by the side of his wife in
Green Mount cemetery.

THE PASTEUR INSTITUTE.

Figures Showing the Number of Patients
Treated and Cures Effected.

NEW YORK, March 25.—Dr. Paul Gib-
ber, director of the New York Pasteur
institute has just made public the
results of inoculation for hydro-
phobia during the first twelve
months of the institute's existence,
February 18, 1890, to February 18,
1891. There were 828 persons treated
for dog and cat bites. Among the num-
ber there were from Illinois, 9; Penn-
sylvania, 5; Missouri, 3; Texas, 2; Ken-
tucky, 2; Ohio, 2; Arizona, 1; Minne-
sota, 1; Iowa, 1; Nebraska, 1; Arkan-
sas, 1; Louisiana, 1, and Indian Terri-
tory, 1. No death caused by hydro-
phobia has been reported among the
persons inoculated. Indigents have
been treated free of charge.

SHE HIT HIM FIRST.

A Texas Woman, Whose Husband Threat-
ened to Take Her Life, Takes Him in
Self-Defense.

DE KALB, Tex., March 25.—On the
J. M. Winston place, 14 miles north of
here, Monday morning, William Watts,
a plantation laborer, on arising, told his
wife Fannie to say her prayers, as he
was going to kill

complete cart

WRECK ON FIRE

A Dozen Persons Either Killed or Injured in a Racine Collision

Passenger and Freight Trains Come Together With a Crash at Midnight.

Flames Add Their Terrors. Many of the Cars Being Burned.

RACINE, March 25.—(Special.)—William Adams, who was killed by the crash of two heavy Chicago & Northwestern engines as a freight and passenger train came together with terrific force at twelve o'clock last night, after a second fire engine broke and flames from the engine and the freight train, were lying beside the track crashed, burst and bleeding from a dozen wounds.

Anderson was the fireman of the freight engine, and he was buried under the twisted and broken fragments of the engine. Not until 2:30 o'clock could the body of the dead fireman be taken from the wreckage. The body was buried in the wreckage, where he had been pinned down by the engine. The body was buried in the wreckage, where he had been pinned down by the engine. The body was buried in the wreckage, where he had been pinned down by the engine.

Martin Kase, of Milwaukee, engineer of the freight train, was badly crushed and bruised. Engineer Dennis E. Burke was fatally injured, it is thought, he being badly cut, bruised and scalded. He was the engineer of the passenger train and lived at Milwaukee. His fireman, John Grobner, was also badly injured being badly scalded about the head and body.

The safe in the express car fell upon Messenger De Silva, pinning him to the floor of the burning car. Willing men went to his rescue, in answer to his cries for help and soon had him in the depot. They were none too soon for the flames were fast crowding upon him. De Silva lived at Chicago.

The sleeping steam caught most of the men as they attempted to extricate themselves from the wreck, and most of them suffered great agony. The injured were quickly taken into the depot waiting room. Doctors were summoned and their wounds were dressed within a few minutes after the accident.

The accident happened at Racine Junction on the Chicago & Northwestern road. The passenger train was known as the Green Bay and Marinette express, and came from Chicago to Milwaukee, leaving Chicago at 10 o'clock in the evening. The train was due at Racine at 12:05 in the morning. While rounding a curve where the view was obstructed by a number of buildings the engineer saw the glare of the freight train headlight close upon him. Both engineer and fireman stuck to their posts, the engine was reversed, the air brakes applied and the sand box opened. But their train was moving fast, and while they probably saved a terrible loss of life they could not avert a collision.

The freight train, as was its custom, ran in on the side track at the junction to give the passenger train the right of way. There were sixty-four cars in the train and it became unmanageable. Loud signals from the engineer for "brakes" were answered by the brakemen, but their efforts to bring the train to a standstill were futile and before either the passenger or the freight engineer could realize what was happening the locomotives had met and crashed. The wreck took fire and began to burn fiercely. The uninjured trainmen and passengers who had been awakened by the awful crash, realized that something must be done and an alarm was turned in to a neighboring patrol box. The department responded in good season, and soon had several streams playing on the blaze. Their work did much toward making it possible to rescue the injured men from the burning wreck.

The freight train, as was its custom, ran in on the side track at the junction to give the passenger train the right of way. There were sixty-four cars in the train and it became unmanageable. Loud signals from the engineer for "brakes" were answered by the brakemen, but their efforts to bring the train to a standstill were futile and before either the passenger or the freight engineer could realize what was happening the locomotives had met and crashed. The wreck took fire and began to burn fiercely. The uninjured trainmen and passengers who had been awakened by the awful crash, realized that something must be done and an alarm was turned in to a neighboring patrol box. The department responded in good season, and soon had several streams playing on the blaze. Their work did much toward making it possible to rescue the injured men from the burning wreck.

POUNDED BY JACKSON CASE.

The Young Man and Ex-Mayor Seem Have a Personal Encounter.

FACINE, March 25.—(Special.)—What at first promised to be a quiet and orderly election now has fair to eclipse anything of the kind that has ever occurred here. Since Jackson Case, the citizens' nominee for mayor, began his campaign, numerous stories have been put in circulation regarding his personal character. There he claims to have traced to M. M. Seor, a democrat who twice served the city as mayor. They met last night on Main street and Case remonstrated with Seor for his alleged scandalous talk. A wordy battle followed. It finally wound up by young Case administering a vigorous drubbing to the ex mayor who fled in dismay. Case says he will sue Seor for slander.

BRIEF LOCAL MENTION.

Henry Skelly visited Milton today. Easter hats are now ready at Mrs. Badler's.

Excursion to Chicago April 14. Round trip \$2.75.

The Natural Gas company went to Rockford this morning.

John R. Ryan is confined to his home by a severe attack of erysipelas.

Ladies' fancy work appears this week at the Leader. Choice 25 cents.

Supper will be served at the Baptist church parlors this evening.

Charles Daly has purchased J. P. Worthington's saloon on North River street.

Seaside and supper at 6 o'clock at the Baptist church parlors this evening. Be sure and come.

Horses clipped in a neat and satisfactory manner at Nelson Brothers' livery stable, Court street.

The life and work of Edgar A. Poe will be discussed by the Fortnightly club Friday evening.

Wisconsin Lodge No. 14, I. O. C. F., occupy Odd Fellows' Hall this evening, regular weekly meeting.

The advance sale of seats for the Ada Bay Blue company will begin at the box office tomorrow.

You can make no mistake when you buy our two, two-fifty and three dollar shoes. BROCKEN, on the bridge.

Chicago, Milwaukee & St. Paul conductors and brakemen received their checks for their month's pay today.

Ladies it is worth your while to stop and see our imported fancy slippers. They are beautiful. BROCKEN, on the bridge.

The Olyonole Maquade will be given Monday night at Columbia hall. Tuckwood's orchestra will play, and all are invited.

The little daughter of Mr. and Mrs. W. H. Rose, who has been dangerously ill of pneumonia for some time past, is improving.

They are "foot fitting," "eye pleasing," "comfort giving shoes"—two, two-fifty and three dollars. BROCKEN, on the bridge.

A private masquerade will be given at La Prairie Grange Hall Friday evening. Fred H. Sheldon, of this city, is one of the floor managers.

The family of the late Albert Lightfoot wish to return thanks to their friends who assisted so tenderly during the hour of their sorrow.

We challenge all competitors with our two, two-fifty and three dollar shoes. For style, fit and wear they have no equal. BROCKEN, on the bridge.

The 9:05 Chicago & Northwestern vegetable train, is now charged with gas at a plant, corner of King and Ada streets, Chicago. The gas is said not to be explosive.

The sudden freeze-up last night compelled the street commissioner to lay off his force of street cleaners until the mud thaws sufficiently to allow shovels to work.

Charles Atwood, Henry Tall and Samuel Tall visited Edgerton and Wankes today for the purpose of buying some heavy horses for the Peoples' Ice company.

This is the last week of the present term of school. There is to be but one week vacation between the winter and spring terms, the spring term commencing on Monday April 6.

All legal voters whose names are not on the registry, must see that their name is on the book at the next meeting of the registry board—March 31. They must attend to this in person.

The funeral of little Charles Kennedy, son of Mr. and Mrs. Matthew Kennedy, of F. O.ville, who died yesterday afternoon, will be held from St. Patrick's church at 11 o'clock tomorrow morning.

Held The Fort Juvenile Temple will circulate a subscription paper to raise funds to build a temple. This was decided upon at the supper served at Post Hall last night, and the paper will probably be started Saturday. There are 75 temples in the city with a membership of 370.

George W. Wise has a very neat display case at the foot of the stairway leading to his photograph parlors. The pictures are hung upon two pillars which are made to revolve by an ingenious arrangement of clock work. Garbutt Brothers built the case which is made of hard wood oil finished.

King & Lamb, who now have a representative in this city buying flour, are among the largest dealers in cereal goods in this country, if not in the world. Last year Ford & Crockett's mill, by the postoffice, shipped the firm six carloads of different brands of flour. Not a bad record for one mill.

Will Jones and his bride, of Emerald Grove, were taken completely by surprise on Tuesday evening of last week, when over fifty of their Emerald Grove friends and neighbors marched in upon them, and took possession of their city domicile, and "did just as they pleased" for three and one half hours. The party was well planned and thoroughly executed. Games, social chat and general merry-making filled the happy hours, which passed away all too quickly. A beautiful repast was served, to which each guest did ample justice. When at last the good byes were all said and many wishes had been expressed for the future success and happiness of all parties, there was a smile of gladness on each face, and none were brighter than the genial host and hostess.

The best value in the world for Oats, Brunes, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures them, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by F. Sherr & Co.

If you want an assortment of wall paper to select from, be sure and call at J. Batherland & Sons.

SAYS KING WAS RIGHT

Col. T. W. Goldin Defends The Soldier-Writer.

SAYS HE DREW FROM LIFE

Personal Familiarity With the Scenes and Men Involved in the Davenport Libel Suit Inclines Him to be on Captain King's Side of the Contest.

"It seems to me that The Gazette was a little severe on Colonel King in his comments on the Davenport libel suit," said Colonel T. W. Goldin. "Colonel King may have taken one reporter of an unpleasant sort and used him as the type of newspaper men in general. I think this explains much of the criticism to which he has been subjected. When he turned to personal description, however, his characters have been taken from flesh and blood realities, not constructed from thin air."

"As to the Davenport case I have reason to know that Captain King intentionally made no personal attack on the gentleman in question, for he was unknown to Captain King at the time. But this he did do, he so far forgot his usual caution as to publish as facts statements made to him by brother officers of the army in whose statements he had every reason to rely. To those of us who are in any way familiar with the facts in this matter it has always seemed strange that the men with feelings and reputations so lauded to the tune of \$15,000 should have been so long in discovering the injury done him in this respect. It is scarcely possible that his feelings can be any more injured now than they were ten or twelve years ago when the sketches of "Campaigning with Crook" were first published in the Milwaukee Sunday Sentinel, and later on in pamphlet form, and scattered broadcast through the country among army men and newspaper writers. Yet, no move was made to institute to plaster the lacerated cuticle with a salve of greenbacks and certificates. Why? Well, I hope we may be pardoned if we believe it was simply because many of the men who had testified to the truth of the description were still living."

THINKS FUEL GAS WOULD PAY.

An Electrical Expert Speaks of Janesville's Prospects.

"I see Janesville is to have two more electric light plants," said H. P. Clarke, formerly with the United States Electric company, but now of Brodhead, at the Grand Hotel this morning.

"Both are to be the incandescent system too. It would pay Janesville capitalists to build a fuel gas plant. This gas, sold for twenty-five cents a thousand feet, is the cheapest and best for lighting and heating of anything that I know of. Did you ever see a fuel gas burner? You see fuel gas is more for heat than for light, and a peculiar burner called a 'stockingette' is necessary. A 'stockingette' is made of some sort of cloth—that is, it is woven in the form of a cylinder tapering from one end to the other. It is about five inches long, and an inch in diameter. When these cases are first made they are dipped in certain solutions the nature of which is a secret, and afterward baked on a mould in an oven. The intense heat burns the fiber of the cloth away and leaves the case composed of a fire-proof metal. Then this case is placed on the gas jet so that the flame is inside like an Argand lamp. There is very little light in the flame, but a steady, brilliant white light radiates from the white-hot 'stockingette'."

"Then, too, the gas can be used for heating, and a burner under a pile of metal logs makes a cheerful fire for a grate."

Mrs. Helen Moore.

Mrs. Helen Moore, whose illness was mentioned in The Gazette some days ago, died at the home of her daughter, Mrs. Agnes Clark, North Bluff street, at 10 o'clock this morning, aged eighty-one years. Mrs. Moore was an old resident of Rock county, and had a large circle of friends who will mourn her death. She leaves a family of seven children—Mrs. Agnes Clark, of this city, at whose home she died; Mrs. McLaugh and Mrs. Barless, Emerald Grove; Robert Moore, of Bradford; William Moore and Mrs. Waters, of Webster, South Dakota, and Mrs. Mary Wallace, of Huntsville, Ohio. The funeral will be announced later.

Mrs. Ellen Morrissey.

Mrs. Ellen Morrissey, aged fifty-nine years, died at her home, No. 3 North Jackson street at eleven o'clock this morning. Mrs. Morrissey had long been a patient sufferer with catarrhs, having been confined to her bed since last May. She leaves a family of five children to mourn her death, they being William H. Morrissey, now on the police force of Chicago, Dennis Morrissey of this city, Miss Elizabeth Morrissey, of Minneapolis, and Misses Alice and Ella Morrissey of this city.

The funeral arrangements have not yet been made.

The Leader.

Opening—Wednesday night and Thursday. Mrs. Kittie Johnson, of Cleveland, Ohio, assisted by Miss Thorne, of Whitewater, Wis., has charge of this department.

J. B. BENNETT.

A Spring Bargain.

Who wants it? \$1,000 cash and \$50 per month makes it easy for any one wanting a nice home to obtain it. New modern house having gas, furnace, city water, etc. Full lot on one of the best streets in the city. Buy now before the boom and have a sure thing. For further information apply to L. R. Treat, No. 165 Lion street.

For Sale.

Fine stock farm of 1800 acres in Mo. 50 miles west of Quincy, Illinois. Good buildings, and plenty of fruit. Will sell any part or all of this farm at \$15 per acre, and take a small farm in Wisconsin as a payment. This farm is rich, productive land, and a splendid bargain.

WILSON LANE.

Att'y at Law, Janesville, Wis.

A stock of McDill's Orange Blossom has been placed with Heimstreet, who will supply any who wish it.

Dr. S. B. HARMAN, Pres't.

Thousands of cancers are permanently removed by entirely new and original methods without pain, loss of blood, or the use of plaster or knife. For book on Cancer (sent free) address Surgical Cancer, Old Columbia, Ohio.
